Stacy's Story

Why the yellow bus?

It all started in the City of Køge with a crazy idea and a vision involving a bus.

"We'll just take a yellow school bus, split it in two, and put it on the building!
- how hard can it be?" Linné

"You are crazy, you cannot do that!" Martin

However, the project ends up being much larger than first assumed. A total of 1,000 forging hours and many sleepless nights were spent before the bus finally became part of Stacy's diner in Næstved.

"Do you intend to separate a bus again for the diner in Næstved?" Martin

"Yes, of course! What else would you expect? Now that you know how to do it, then it's easily done!" Linné

Practice makes perfect! The bus in Næstved only took 300 hours to split in 2, clearly a solid improvement.

The yellow school bus used in Næstved is imported from the USA, and has transported thousands of children in Pottsville, Pennsylvania to and from School. It suffered the same fate as other older buses, behind a fence where it was doomed to disintegrate, but was rescued at the last minute when we saw it and immediately thought it perfect for Næstved.

About the Ford Truck

In 1951, the Truck meets the American highways for the first time, and behind the wheel sits Duane. It turns out to be a long life together because Duane loves the Truck so much he has it until he dies in 2009. In 2019, the Truck was found under a tarpaulin, forgotten and abandoned. But tough and faithful as it is, the engines starts when the key is turned!

Then it takes its last journey, a trip to Næstved, where it will be a part of the biggest and wildest diner in Denmark, and where its story will be read and remembered by children and adults.

The story of the Cadillac

We were not searching for a Cadillac at all. But then it appeared out of nowhere, and the power shopper Linné is when it comes to cars, enamel signs, old fuel stands, license plates, etc., there were visions behind each purchase. The total tally was 3 Cadillacs, 3 trucks, a hot Visa card, and 2 shipping containers that were now crossing the Atlantic.

Linné had lots of ideas for what and how we (or Martin and the blacksmith) should finalize the blue Cadillac Eldorado from 1973. It remains unknown how many hours were spent on the Cadillac but we can reveal it involved many changes along the way. However, fortunately all ideas and changes were received with enthusiasm. 😊

Fun facts Linné drilled all holes in the ceiling and heating panels. If you look closely, you will be able to find the the Big Dipper in one side of the restaurant, or as the young electrician said:
"Uh ... where did you make that Carlsberg truck?"
Larry, our license plate pusher in Illinois, has sent about 5.000 license plates to Stacy's so far. A keen eye will discover one of our toilets is dedicated to him - Thanks Larry
P.S. We know one license plate is turned upside down - it's only because we can 😊

Welcome to our Diner, a time capsule, where crazy ideas becomes alive, and anything is possible if your will holds true.

Linné & Martin Sommer

Stacy's breakfast

Served every Saturday and Sunday from 10-12AM

Served every day:
10-12AM from 25th June to 7th August

Breakfast combo

1/1 rack 169,-

The legend of Route 66

Route 66 was the first and biggest highway through 8 states in America. It served as a primary route for those who migrated west, but also as a means of commuting to and from work. Thus, it was the ideal location for diners as the route supported the hard working and hungry population in need of a solid, affordable meal. Despite bigger and better highways and freeways since then, route 66 remains a symbol of a united America, with lots of diners, worth a visit.

Sides / Snacks

Snack Combo 105,-
4 Chicken Strips, 4 Buffalo Hot Wings, Onion rings and optional dressing.
"Authentic American experience."
