Stacy's Story

Welcome to our time warp where the future becomes the past and the past becomes your new present.

Stacy's diner is a universe where the odd becomes normal and crazy ideas are standing in line to become reality.

It is a time warp in a highly accomplished style, where every single detail has been carefully selected for the American diner environment of the 50s.

You can forget any problems and newfangled technology for a while, and with a look in the mirror you see yourself with a turned-up collar, hair cream in your hair and a toothpick in the corner of your mouth, or with a swing skirt, polka print and accentuated waist.

It's like sitting and waiting for Biff from Back to the Future to open the door to have a man-to-man chat with poor George McFly. And with Elvis Presley's Hound Dog playing on the jukebox or some of the countless other musical evergreens from that time, it's not possible not to be carried away by the fantastic atmosphere - yes, you'll just be happy and it is in no way abnormal to suddenly imagine the super cool Danny Zuko and the Australian beauty, the exchange student Sandy Olsson, sitting in the next booth, giggling and with shy glances sending love through the air, all while James Dean and Marilyn Monroe songs plays from the jukebox.

It's fictional and it's the past, but when you sit there it feels like fabulous fantasy and it's AWESOME. You want to rub your eyes, just to catch a glimpse of the extremely delicious greasy burgers and the real milkshakes that the stylish waitress brings. It's a teenager in love big time, and it's pure luxury for both the eye, mind and stomach, and it's an experience that will stay with you long after your visit.

So let go of the everyday routine for a moment and let us give you the experience of how 110% coziness, happiness and dreams are enjoyed at an all-American 50's diner - it's almost magical!

Real Facts

Stacy's Diner opened in 2018 in Køge with a yellow school bus split lengthwise and placed on the building. Stacy's diner very quickly became both an attraction and a destination. Every summer the diner has a large music program, and Elvis himself visits the diner several times during the summer.

In 2021 Stacy's Diner opened the largest diner in Scandinavia in Næstved with a total of 700 seats. In the diner itself there is a Cadillac, a Ford Truck and a Chevrolet Apache in which you can sit and eat. Every summer Rockabilly music will be played, when various artists incl. Elvis performs on the diner's large terrace.

2023 was the year Stacy's Diner came to Copenhagen and opened on Trianglen. The iconic bus was not allowed to be included, but it has given way to a pinker Pin Up universe combined with old license plates.

Fun facts

Did you know that Stacy's Diner has a blacksmith employed full-time to execute only the crazy ideas Linné comes up with. He's totally crazy with this phrase.... I just have the most exciting task for you 🤪

Did you know we all our license plates from our license plate pusher Larry. He is from Illinois and has so far sent 8000 license plates to Stacy's diner - Thanks Larry.

PS. We know there are some license plates that are facing the wrong way - it's only because we can 😊

Welcome to a world where crazy ideas becomes alive

The legend of Route 66

Route 66 was the first and biggest highway through 8 states in America. It served as a primary route for those who migrated west, but also as a means of commuting to and from work. Thus, it was the ideal location for diners as the route supported the hard working and hungry population in need of a solid, affordable meal.

Despite bigger and better highways and freeways since then, route 66 remains a symbol of a united America, with lots of diners, worth a visit.
